

MAN OVERBOARD

Jonbuoy Recovery Module

Recovering a man overboard can be an extremely hazardous operation for both the crew and the casualty, regardless of vessel size. The Jonbuoy Recovery Module is designed to make this a simple operation, whilst increasing vital visibility and buoyancy for the casualty. Accepted as a direct replacement for a regular danbuoy horseshoe, drogue, light and whistle, specified within the ISAF offshore special regulations.

Features

- Automatic inflation
- Automatic light
- Lifting ring
- SWL 200kg
- Retro tape
- Large ballast pocket
- Whistle
- 5m weighted throwing line
- Compact & lightweight
- Repackable.

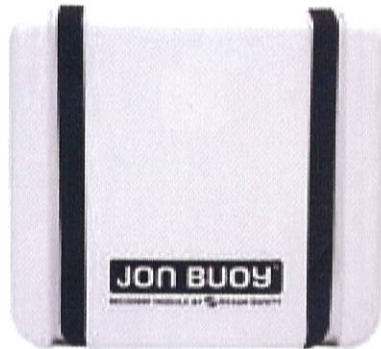

In addition the following safety items can also be packed inside the unit:

- Personal EPIRB
- Mini flares
- Fog horn
- Strobe light and torch.

Spare 115g inflation cylinder

Part No: JON1500

The Jonbuoy Recovery Module is available in a standard pushpit mount and a bulkhead mount.

Standard pushpit mount module information

Module	Dimensions (cm)	Weight (kg)	Part No
White	68 x 48 x 23	8	JON1000
Black	68 x 48 x 23	8	JON1010

Bulkhead mount in ss cradle information

Module	Dimensions (cm)	Weight (kg)	Part No
White	68 x 48 x 23	10	JON1020
Black	68 x 48 x 23	10	JON1025

Module Release System

The Module Release System allows the Jonbuoy to be remotely deployed. A simple switch system fires a small CO₂ cylinder, and also allows the system to be disarmed when in port.
