International Safety Products

International Safety Products Ltd is the World's largest manufacturer of marine inflatable lifejackets, and a leading manufacturer/supplier of survival equipment.

We use the very latest in textile technology and pursue an innovative design philosophy, ensuring production of safety equipment capable of performing to the highest standard in the most extreme of conditions.

*275N Interlocking lobe design

Challenger Worksafe Commercial Lifejackets

Purpose

Throughout the EU and many other countries around the world, the laws relating to the Health and Safety of employees are becoming increasingly stringent, especially those laws affecting marine related activities and lifejackets.

ISP has for several years led the market in terms of design, manufacture and marketing of these commercial lifejackets.

The Worksafe provides a versatile lifejacket for the professional working on or near water, in industries such as:

- Water utility companies
- Ship builders
- Harbour and marine construction companies
- Port management companies
- Dredging companies
- Workboat operators
- Bridge construction and maintenance companies

Worksafe complies with both CEN and the European PPE 'Safety in the Workplace' regulations and is available in two buoyancy options. The guide below will assist in selecting the correct buoyancy and inflation system - automatic or manual - appropriate to the lifejacket use. If you are unsure, please call ISP for clarification.

Buoyancy Selection/ Option	150N	275N
Enclosed/ sheltered waters	•	•
Flowing or tidal waters	•	•
Wearing heavy clothing or tool belts		•
Working at height of 2M plus	•	•
Working adjacent to water (low risk)	•	
Working alone or in small groups	•	•
Wearing dry suit		•

Inflation Option/ Selection	Auto	Manual
No risk of injury		•
Working at height of 2M plus	•	
Possibility of entering water unconscious	•	
Risk of shock, injury or panic	•	

Description

Easy to don and comfortable to wear, this slim, unobtrusive lifejacket can be fitted with a fire proof cover enabling it to be worn while welding or burning.

The patented interlocking lobes self right the wearer in under 5 seconds and create an effective wave barrier preventing water from being channelled into airways, the tailored neck gives vital support to the head and neck – even to an unconscious subject.

Specification

- Single chamber fully automatic or manual gas inflation system
- Retro-reflective tape
- Whistle
- Lifting loop
- Red, orange or blue standard cover in either nylon or PVC
- 150N or 275N buoyancy
